

# Eclipse™ Total Shoulder System

2024 Coding and Reimbursement Guidelines

To help answer common coding and reimbursement questions about arthroplasty procedures completed with the Eclipse total shoulder system, the following information is shared for educational and strategic planning purposes only. While Arthrex believes this information to be correct, coding and reimbursement decisions by AMA, CMS, and leading payers are subject to change without notice. As a result, providers are encouraged to speak regularly with their payers.

## FDA Regulatory Clearance

The Eclipse shoulder prosthesis is indicated for severely painful and/or disabled joint resulting from osteoarthritis or traumatic arthritis (K183194).

## Value Analysis Significance

The Eclipse anatomic shoulder arthroplasty system provides bone-preserving humeral head replacement. A novel cage screw and trunnion provide fixation of the implant without removing bone from the proximal humerus or the canal. The cage screw gains fixation in the metaphyseal bone while compressing the trunnion to the cortical rim, thereby reducing stress shielding. The device also provides bony growth surfaces, fenestrations in the cage screw, and calcium-phosphate coating of the trunnion, which all yield a stable construct with multiple modes of fixation.

## Coding Considerations

Codes provide a uniform language for describing services performed by health care providers. The actual selection of codes depends upon the primary surgical procedure, supported by details in the patient's medical record about medical necessity. It is the sole responsibility of the health care provider to correctly prepare claims submitted to insurance carriers.

## Physician's Professional Fee

The primary arthroplasty procedure determined by the surgeon may include:

2024 Medicare National Average Rates and Allowables (Not Adjusted for Geography)		Physician <sup>b</sup>		Hospital Outpatient <sup>c</sup>		ASC <sup>d</sup>
		Medicare National Average				
CPT <sup>aa</sup> Code HCPCS Code	Code Description	Facility Setting (HOPD and ASC)	Non-Facility Setting (Office)	APC and APC Description	Medicare National Average	Medicare National Average
<b>Shoulder</b>						
<b>20902</b>	Bone graft, any donor area; major or large	\$269.16	N/A	5114 - Level 4 Musculoskeletal (MSK) Procedures	\$6823.42	\$3393.01
<b>20985</b>	Computer-assisted surgical navigational procedure for musculoskeletal procedures, imageless (list separately in addition to code for primary procedure)	\$140.80	N/A	Packaged service/item; no separate payment made		Packaged service/item; no separate payment made
<b>23334</b>	Removal of prosthesis, includes debridement and synovectomy when performed; humeral or glenoid component	\$1046.83	N/A	5073 - Level 3 Excision/Biopsy/ Incision and Drainage	\$2710.16	\$1157.18
<b>23335</b>	Removal of prosthesis, includes debridement and synovectomy when performed; humeral and glenoid components (eg, total shoulder)	\$1249.85	N/A	Inpatient procedure only		
<b>23395</b>	Muscle transfer, any type, shoulder or upper arm; single	\$1269.17	N/A	5114 - Level 4 MSK Procedures	\$6823.42	\$4249.21

## 2024 Coding and Reimbursement Guidelines

HCPCS Code	Code Description	Notes
C1776	<b>Joint device (implantable)</b> An artificial joint that is implanted in a patient. Typically, a joint device functions as a substitute to its natural counterpart and is not used (as are anchors) to oppose soft tissue-to-bone, tendon-to-bone, or bone-to-bone.	For Medicare, anchors/screws/joint devices are not separately reimbursed in any setting of care (eg, hospital, ASC). These costs are absorbed by the facility via the appropriate reimbursement mechanism (eg, MS-DRG, APC, etc).
L8699	<b>Prosthetic implant, no otherwise specified</b> This code reports prosthetic implants that are not otherwise described in more specific HCPCS Level II codes.	For non-Medicare (eg, commercial) patients, depending on contractual terms and general stipulations of the payer, direct invoicing by the facility may be allowed. Contact the patient's insurance company or refer to the facility's payer contract for more information.
A4649	<b>Surgical supplies; miscellaneous</b> This code reports miscellaneous surgical supplies and should only be reported if a more specific HCPCS Level II or CPT code is not available.	

List of Pass-Through Payment Device Category Codes (Updated September 2022) [https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS/passthrough\\_payment](https://www.cms.gov/Medicare/Medicare-Fee-for-Service-Payment/HospitalOutpatientPPS/passthrough_payment)

For more information about the primary procedure, please speak with your admitting surgeon. You may also call the Arthrex Coding Helpline at 1-844-604-6359 or email [arthrexRSP@arthrex.com](mailto:arthrexRSP@arthrex.com).

The information provided in this handout was obtained from many sources and is subject to change without notice as a result of changes in reimbursement laws, regulations, rules, and policies. All content on this website is informational only, general in nature, and does not cover all situations or all payers' rules and policies. This content is not intended to instruct medical providers on how to use or bill for health care procedures, including new technologies outside of Medicare national guidelines. A determination of medical necessity is a prerequisite that we assume will have been made prior to assigning codes or requesting payments. Medical providers should consult with appropriate payers, including Medicare fiscal intermediaries and carriers, for specific information on proper coding, billing, and payment levels for health care procedures. It is the sole responsibility of the medical provider to determine the appropriate coding.

This information represents no promise or guarantee concerning coverage, coding, billing, and payment levels. Arthrex specifically disclaims liability or responsibility for the results or consequences of any actions taken in reliance on information in this handout or through the Arthrex Coding Helpline. This guide does not constitute legal, coding, coverage, reimbursement, business, clinical, or other advice and no warranty regarding completeness or accuracy is implied.
