

Spine Resource Shortcuts

Introduction to Arthrex Spine Video

Introduces the Arthrex Spine portfolio and highlights our innovative motion- and soft-tissue-preserving endoscopic surgical options and orthobiologics, endoscopic spine-specific course, and comprehensive surgeon support.

Spine Medical Education Video

Surgeons share their positive experiences with the Arthrex endoscopic spine-specific course, which provides individualized education through a progressive curriculum pathway that starts with medial branch transection, progresses to interlaminar discectomies for central disc herniations, and finishes with transforaminal discectomies for posterolateral disc herniations.

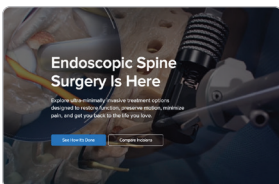

Spine Home Page

Share this resource with your surgeons to introduce them to the Arthrex Spine portfolio, which includes endoscopic instrumentation and orthobiologic products to supplement fusions and other spine procedures.

Spine Courses MedEd Web Page

Visit the MedEd course calendar to view upcoming courses for spine.

Patient Educational Web page

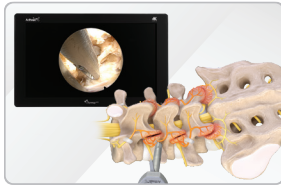

ArthrexEndoscopicSpine.com is a patient-facing website with a Find a Doctor service that helps guide treatment-seeking patients in your vicinity to your practice.

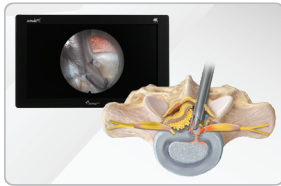

Patient Outreach Kit

The Patient Outreach and Education Resource Kit provides an overview of all available tools for physicians and administrators. It includes descriptions of resources such as clinic posters, post-operative holographic cards, patient guides, and links to our media kit and patient-facing website, which features the find-a-doctor tool.

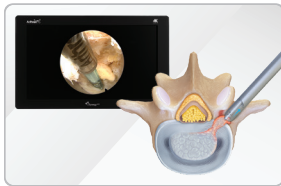

Endoscopic Medial Branch Transection Web Page

Includes resources dedicated to the medial branch transection procedure, including surgical technique guides, animations, and more.

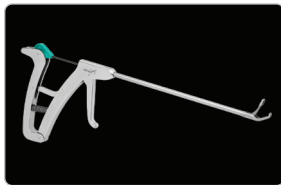

Interlaminar Endoscopic Discectomy Web Page

Includes resources dedicated to the endoscopic interlaminar discectomy procedure, including surgical technique guides, animations, and more.

Transforaminal Endoscopic Discectomy Web Page

Includes resources dedicated to the endoscopic transforaminal discectomy procedure, including surgical technique guides, animations, and more.

Spine Scorpion™ Suture Passer Web Page

Includes resources dedicated to the Spine Scorpion suture passer for fascial closure, including surgical technique guides, animations, and more.

JumpStart® Antimicrobial Wound Dressing Web Page

Includes resources dedicated to JumpStart antimicrobial wound dressing, including surgical technique guides, animations, and more.

Catalog

Provides a list of product numbers and includes product and procedure descriptions and ordering information for spine and orthobiologics products.

Spine Coding and Reimbursement Guidelines

Get answers to common coding and reimbursement questions about spine-related and graft placement procedures completed with the products in this guide.

Note: This information is shared for educational and strategic planning purposes only.

Instrument Checklist

Use this checklist to customize your intraoperative setup based on your surgical preferences.

Digital Resource Collection

View our collection of surgical techniques, patient education, product highlights, and more.

Endoscopic Learning Simulations

Learn the steps for endoscopic approaches through our interactive learning simulations.
