- Needles attached
- 1.8 mm step drill bit (recommended)
- 2.0 mm step drill bit (hard bone only)
- Drill depth, 10 mm
- **NEW** slotted inserter

## Ordering Information

### Small Joint Anchors

Product Description	Item Number
Mini BioComposite SutureTak Anchor With Needles, 2.4 mm × 8.5 mm with one 0.9 mm SutureTape and 2 tapered needles, 17.9 mm $\frac{3}{8}$ circle with nitinol loop	AR-1322BCST
<b>Mini SutureTak Disposables Kit</b>	
Drill Guide Punch Step Drill Bit, 1.8 mm (recommended) Step Drill Bit, 2.0 mm (hard bone)	AR-1322DSC

## Key Features and Benefits

- Versatile anchor used across the foot and ankle for soft-tissue fixation to bone
- Excellent cortical purchase with ridges along entire length, with exceptional pull-out in harder cortical bone<sup>1</sup>
- Minimize suture abrasion: the SutureTape-on-suture eyelet interface avoids the type of wear that can occur between an anchor and suture
- Preloaded with tapered needles and SutureTape for excellent strength in a smaller size<sup>1</sup>
- SutureTape allows surgeons to make tighter and smaller knot stacks
- More resistant to tissue tear through compared to standard FiberWire<sup>®</sup> suture<sup>2</sup>
- Proven material where the BioComposite Knotless SutureTak is manufactured from PLDLA and  $\beta$ -TCP (beta-tricalcium phosphate)
