---

## AR-300 DrillSaw Mini 300 Power System

Ergonomically designed for hand/wrist and forefoot procedures

## Testimonial

---

"The Drillsaw Sport 400 is my go-to power for all of my sports medicine cases. The incredibly powerful, lightweight, battery-operated power tool is perfectly designed for precision drilling and reaming that sports medicine surgeons require for finer arthroscopic applications."

James J. Guerra, MD

### AR-400 Drillsaw Sports 400 Power System

Two-trigger handpiece designed for sports medicine, arthroscopic, and trauma applications

This description of technique is provided as an educational tool and clinical aid to assist properly licensed medical professionals in the usage of specific Arthrex products. As part of this professional usage, the medical professional must use their professional judgment in making any final determinations in product usage and technique. In doing so, the medical professional should rely on their own training and experience and should conduct a thorough review of pertinent medical literature and the product's directions for use. Postoperative management is patient-specific and dependent on the treating professional's assessment. Individual results will vary and not all patients will experience the same postoperative activity level or outcomes.
